

Currently the RCT has only 2 approved training scheme providers, namely Institute of Physics and Engineering in Medicine (IPEM) and the Association of Renal Technologists (ART). The RCT now also recognises the Modernising Scientific Careers (MSC) Practitioner Training Programmes (PTP) as a route to RCT registration.

The following educational programmes directly support the 2 approved training schemes. Other routes into the training scheme are available to those with existing relevant science or engineering qualifications. To achieve RCT eligibility it is expected that in addition to successfully completing the educational programme, a workplace competency programme administered by IPEM or ART will also be successfully completed.

Course	Course Type	Subject Areas
Castle College Nottingham / De Montfort University Leicester	Vocational Degree	Nuclear Medicine Radiotherapy Physics Radiation Physics
Coventry University	Vocational Degree	Rehabilitation Engineering
Coventry University	Graduate Diploma	Rehabilitation Engineering
Swansea University	Vocational Degree	Nuclear Medicine Radiotherapy Physics Radiation Physics
Salford University	Post Graduate Diploma	Nuclear Medicine
Bradford University	Modular Short Courses	Renal Technology

As the RCT now recognises the Modernising Scientific Careers (MSC) Practitioner Training Programme (PTP) as a route to registration, the following degree courses and their associated workplace training programmes are also recognised for registration purposes. For up to date MSC Accredited Courses and information see <http://www.networks.nhs.uk/nhs-networks/msc-framework-curricula/ptp-1/accredited-bsc-hons-healthcare-science-programmes>

Bradford University	BSc (Hons) Healthcare Science	Medical Engineering Rehabilitation Engineering Renal Technology
Cumbria University	BSc (Hons) Healthcare Science	Nuclear Medicine Radiation Physics Radiotherapy Physics
Cumbria University	Graduate Diploma	Nuclear Medicine Radiation Physics Radiotherapy Physics
De Montfort University	BSc (Hons) Healthcare Science	Medical Physics
Liverpool University	BSc (Hons) Healthcare Science	Nuclear Medicine Radiotherapy Physics
Swansea University	BSc (Hons) Healthcare Science	Nuclear Medicine Radiotherapy Physics

Additional training programme approved through IPEM training scheme:-

MSC Radiotherapy Physics (Dosimetry Pilot) Early Implementer Practitioner Training Programme (London)
